## SUMMARY

---

I am a fourth-semester Informatics student with a robust foundation in software development, data analysis, and web technologies. My academic journey has equipped me with practical skills in programming languages such as Python, Java, and JavaScript, along with experience in database management and cloud computing. In addition to my technical expertise, I am an aspiring entrepreneur with hands-on experience in running a small-scale e-commerce business. This venture has honed my skills in digital marketing, customer relationship management, and financial planning. I am passionate about integrating technological solutions to drive business growth and efficiency. My goal is to leverage my technical knowledge and entrepreneurial spirit to innovate and contribute meaningfully to the tech industry.
